UNIT 5 — WRITING — WRITING AN INFORMATIVE SCIENTIFIC REPORT

Focus: An Informative Scientific Report (Structure & Recommendations)

LEVEL: STANDARD / INDEPENDENT PRACTICE

Part 1: Key Vocabulary & Terminology

Match the correct vocabulary term or definition:

1. The opening section defining the scope and purpose of the investigation — **Term:** _____
2. The section detailing how empirical data and clinical trials were executed — **Term:** _____
3. The analytical presentation of empirical evidence gathered — **Term:** _____
4. Actionable proposals and next steps presented to decision-makers — **Term:** _____
5. A high-level synopsis placed at the start of a comprehensive report — **Term:** _____

Part 2: Comprehension & Concept Application

Choose the correct option according to the lesson:

1. How should an informative technical or medical report be formatted for optimal professional clarity?
   A) Numbered topical headings, concise bullet points, and distinct analytical sections
   B) One continuous unbroken block of informal text without paragraphs **C)** Handwritten poetic verses decorated with emojis
   D) A fictional dialogue between imaginary characters
2. Where do specific actionable proposals and policy suggestions belong in a formal report?
   A) In the concluding 'Recommendations' section **B)** In the middle of the bibliography list **C)** In the greeting salutation line
   D) Nowhere; reports never offer suggestions
3. The 'Methodology' section of a scientific report must explicitly describe:
   A) How research data, interviews, and clinical observations were conducted **B)** The author's personal childhood memories
   C) The budget of the local municipal cinema **D)** Weather forecasts for the coming winter
4. In formal report writing, tone and register must remain:
   A) Objective, factual, precise, and devoid of emotional exaggeration **B)** Casual, humorous, and full of colloquial slang
   C) Angry, dramatic, and sarcastic **D)** Vague and poetic

Part 3: Practical Sentence Completion

Complete each sentence with a grammatically accurate term from the unit:

1. The opening section states the investigation's official _____ (Terms of Reference).
2. Detailed descriptions of clinical experiments belong in the _____ (Methodology).
3. The committee formulated three actionable policy _____ (Recommendations).
